## SUMMARY

Junior Front-End developer specialized in the React js , highly motivated seeking an opportunity to apply web development skills and gain more experiences in a dynamic, collaborative environment. I am eager to contribute to innovative web solutions.

## EXPERIENCE

### Front-End developer using React js

Alrowadit.com

February 2024 - Present, Naj Hammadi , Qena

- Leveraged my expertise in React.js to spearhead the development and improvement of web applications at Al Rowad AITSP.
- Developed an interactive and responsive user interface for an E-learning platform utilizing React.js, React-Hook-Form, Tailwind CSS, Redux, Redux-toolkit, Axios, and React-Router-Dom.
- Contributed to team efforts in implementing theme customization for Zekraa Jewelry Store, an E-commerce store on the Salla Platform in Saudi Arabia.

## EDUCATION

### Bachelor degree in accounting

South Valley University • Egypt, Qena • 2022

## PROJECTS

### GamersZone

Personal Project • <https://main--gamerz-zone.netlify.app/>

- Developed GamersZone website utilizing JavaScript to interact with multiple APIs, resulting in a user interactive website of many historic games and the latest released games.
- Developed and implemented GamersZone project using React JS, Vite, React Context, Tailwind CSS, Axios, React-router-dom, and RAWG API.
- Ensured seamless user experience across various devices by implementing responsive design principles using React-Bootstrap, enhancing accessibility and usability.

### Cloned Amazon E-commerce website

Graduation Project at the ITI • <https://fir-88026.web.app/> • November 2023 - November 2023

- Leveraged React.js and Tailwind CSS to replicate the functionality of the Amazon E-commerce website, enabling users to register, login, browse products, add items to their cart, and complete transactions via both cash on delivery and Visa card payment methods.
- Collaborated closely with team members to develop a high-fidelity clone of the Amazon website. Utilized technologies such as Axios, React-Router-Dom, and Firebase for backend services, integrating features like Firestore, Firebase Storage, Firebase Hosting, and Firebase Authentication. Additionally, employed tools like React-Toastify, Redux, Redux-Toolkit, and implemented lazy loading techniques.
- Ensured seamless user experience across various devices by implementing responsive design principles using React-Bootstrap, enhancing accessibility and usability.

### React Movies app

Personal Project • <https://github.com/fadyshenoda090/React-movies-app>

- Developed a React Movies app using React-Bootstrap, Bootstrap, Axios, React-Router-Dom, Redux, Redux-Toolkit, React Context, and the TMDB API.
- Utilized react-bootstrap, bootstrap, axios, react-router-dom, Redux, Redux-toolkit, React context and the TMDB API.
- Ensured seamless user experience across various devices by implementing responsive design principles using React-Bootstrap, enhancing accessibility and usability.

### Hungry fish game

Personal Project • <https://github.com/fadyshenoda090/Hungry-Fish-Game>

- Led the successful completion of the Hungry Fish game project within the specified timeline, demonstrating exceptional teamwork and technical proficiency.
- Utilized technical skills in HTML5 and CSS3 to create an interactive and visually captivating gaming experience and implemented responsive design.
- Implemented JavaScript methods and functions to enhance user interface interactivity for the Hungry Fish game.

## CERTIFICATIONS

### Intensive Code Camp ICC in Front-End & cross-platforms mobile Development

Information Technology Institute • 2023

- Certified proficiently building seamless and responsive user interfaces and user experiences for both websites and mobile applications, employing modern technologies.

### Intensive Code Camp ICC in Software Development Fundamentals

Information Technology Institute • 2023

- Certified that I have acquired foundational knowledge in web development encompassing both front-end and back-end aspects, database fundamentals, and programming languages such as C and C++.

## SKILLS

Technical Skills: ReactJS, JavaScript, Redux, Redux-toolkit, Code Review, Tailwind CSS, Bootstrap, HTML5, CSS3, GIT & GitHub, Windows OS and Ubuntu OS

Soft Skills : approachable and friendly, Problem-solving, Adaptability/Flexibility and Effective communication skills
